Jagoe Homes Named National Builder of the Year *by Professional Builder Magazine*

- **RANKED BEST IN AMERICA**
Topping more than 119,000
U.S. Home Builders
- **LIFETIME ACHIEVEMENT**
Awarded only once in a
Builder's Career

Here's Why Judges Chose Jagoe Homes:

“Decades of seeking and embracing best practices”

“Unceasing commitment to improvements in processes”

“Proactive implementation of new initiatives”

“Making positive decisions one day and executing them the next”

“Investing in the expertise of the industry's most respected consultants”

Excerpts from the Professional Builder Magazine Feature:

“Brothers Bill and Scott Jagoe, partners in Owensboro, Kentucky-based Jagoe Homes, are an overnight success, 25 years in the making.”

“Attending every International Builders' Show since the 1970s when they worked for their father, [Bill and Scott] have sought best practices and invested in the best consulting advice available...”

“It is the Jagoes' unrelenting quest to improve along with their quick action on new initiatives that separates [Jagoe Homes] from other builders... They make a decision one day and are executing it the next... That is why [Jagoe Homes] is as good a builder today as you will find anywhere.”

3RD GENERATION FAMILY BUSINESS

Jagoe Homes was founded in 1939 by Grandfather Carlos Jagoe Jr., a dedicated carpenter and craftsman who taught his expertise and customer focus to his son, William Jagoe. William's own sons, Bill and Scott, have been setting – and reaching – new quality, green-building, lean-building and service goals since taking over Jagoe Homes in 1985.

Jagoe Homes thanks our design, sales and service team – and our construction partners – for helping create energy efficient, affordable, award-winning homes and communities across the Midwest for decades.

AWARDS
&
HONORS

Jagoe Homes has been placed on the Top 100 Builder List, an annual national ranking issued by Builder Magazine. And, Jagoe Homes regularly receives the EPA ENERGY STAR Leadership in Housing Award for our contributions to home construction that reduce energy usage and the emission of greenhouse gases.

Jagoe Homes also has been recognized as a Lean Building Leader by HousingZone.com and received the highest-level Builder Partnerships Achievement Award by Professional Builders magazine for superior customer satisfaction.
